Target version:	TTDPatch 2.5			

Description

TTDPatch Version: 2.5 beta 9 WIN
Patch Feature: Purchase Window

Using cargo type FFh (Type B) as primary cargo and if there are no refittable cargos available the information in the vehicle purchase window is incorrect. This situation is quite possible, if the external new cargo/industry set fails to deliver or has not been activated.

a) Capacity: an incorrect cargo shown; should be 'N/A'
b) an extra blank line
c) Usage information missing (CB 23 text)

left panels, for comparison
right panels, top : no suitable refittable cargos for this wagon available in game; bottom : refittable cargos of iron ore and copper ore available, these cargos are new cargos in an arctic game. Everything is correct.

TTDPatch 2.5 beta 9 (WIN) in arctic climate.
