

TTDPatch - Bug #167

Vehicle list empty

17/08/2007 11:56 PM - Anonymous

Status:	Resolved	Start date:	17/08/2007
Priority:	Normal	Due date:	
Assignee:	Jonathan Rennison	% Done:	0%
Category:	Major	Estimated time:	0.00 hour
Target version:			
Description			
Original Author: Patrick M TTDPatch Version: 2.6 a0 r1704 Patch Feature: sortvehiclelist / experimentalfeatures.incvehconsist			
When I click Trains / Road Vehicles / SHips / Aircraft at the top of the screen, The list is empty, but the scroll bar works & when I click on an empty bar, a vehicle dialog box pops up. This is consistent for all my saved games. Thanks in advance.

I suspect you need to either turn sortvehiclelist on or turn experimentalfeatures.incvehconsist off. If this does not work, please post your ttdpatch.cfg.

Title: Thankyou

sortvehiclelist was off, so I turned it on as you said. Now it works again! Thankyou very much... :D

There are several incompatible patches, I haven't written the code for the vehicle window:

So assigned the bug to JGR and changed to major as the vehicle list is important
