

TTDPatch - Bug #20

Railtrack removal

07/03/2006 06:22 PM - Anonymous

Status:	Cannot Reproduce	Start date:	07/03/2006
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Minor	Estimated time:	0.00 hour
Target version:	TTDPatch 2.5		

Description

Original Author: Paul Schweizer (The Irish)
TTDPatch Version: 2.5 beta1

two small bugs in the railtrack removal:

1. draggable remove for \ and / tracks does not work.
2. remove for - and | has some errors. when trying to remove a piece of this track, but accidentally click on a non track tile, the remove gets deselected and with next click, it starts building tracks instead.

Happens since quite a while, at least the last twenty alphas.

History

#1 - 21/10/2006 08:01 PM - Nathaniel Lake

1. does not exist, there is no draggable remove for tracks in the / and \ directions

#2 - 17/10/2008 05:08 PM - Dale McCoy

Could not reproduce in either 2.6 r2054 or beta 9.
