| <b>Target version:</b>  | TTDPatch 2.5  |                        |            |
| <b>Description</b>  |               |                        |            |
| TTDPatch Version: rev 904<br>Patch Feature: newtrains/var 42/callback 1D  |               |                        |            |
| See <a href="http://www.tt-forums.net/viewtopic.php?p=487998#487998">http://www.tt-forums.net/viewtopic.php?p=487998#487998</a> for the bug report.                     |               |                        |            |
| I can confirm all three items; the notable difference is that it works if you remove and then sell the wagon, but not if you sell the wagon while it is still attached. |               |                        |            |
| Callback 36 and prop 25 are unused throughout USSet 0.86, as are the high two bytes of variable 42. (The low two bytes are used several times, though.)                 |               |                        |            |
| This bug persists in the face of &quot;-a- -2 --newtrains=on --multihead=0 -XY 1976 --electrifiedrailway=on&quot;.  |               |                        |            |
