

TTDPatch - Bug #93

UTF-8 symbols in places of special characters

02/10/2006 07:34 PM - Anonymous

Status:	Resolved	Start date:	02/10/2006
Priority:	Normal	Due date:	
Assignee:	Josef Drexler	% Done:	0%
Category:	Minor	Estimated time:	0.00 hour
Target version:	TTDPatch 2.5		
Description Original Author: minime TTDPatch Version: 2.5 beta 8, 2.6 r982 - r1054 Patch Feature: UTF-8 Redefining UTF-8 symbols located at codes that correspond to the old special TTD characters changes the original glyphs that should have been remapped.
